# LOCAL INTELLIGENCE.

LETTER FROM THE SAN JUAN COUNTRY

We were yesterlay shown a letter from Pat. Quinlan, dated Del Norte, Dec. 4, and addressed to his brother, James Quinlan, a resident of Pioche. In the present inclement weather it is hardly necessary to reiterate our previous warnings against undertaking a trip to San Juan at the present time. We copy the following from the letter: I arrived here on the 29th ult., in company with Sam. Copeley, in tip-top spirits and good health. This town is located on the Rio Grande, 250 miles from Denver and 160 miles from Pueblo, between ranges of the Rocky Mountains. I would not advise any one to take the route we traveled to get to the mines, or to come this way. The Animas District is about 105 miles from here by the trail along the Rio. We were yesterday shown a letter from any one to take the route we traveled to get to the mines, or to come this way. The Animas District is about 105 miles from here by the trail along the Rio Grande, which is impassable at present, and obliging us to go around by the Tierra Maria, in New Mexico, making a distance of 228 or 230 miles to Animas distance of 225 or 235 miles to Animas
Park, where we will have to Winter. I
am told that this park is one of the most
beautiful spots in the Western country,
the soil being very productive for all
kinds of grain and vegetables. The
mines are located about 35 miles from this park, running in different directions this park, running in different directions on different mountains. On one of these ranges is the famous Little Giant mine, which I am told has given ansays as high as \$37,000 in gold per ton. The mine sold last year for \$36,000. In close proximity to the Little Giant is the Green Mountain, a silver mine, which is held at \$400,000. The sale of the Little Anna mine (gold), located in Summit District, 35 miles from this point, was made at Washington, D. C., to an English company, for helf a million dollars, about six weeks ago. There have been 3,100 locations secured in the past two years, which have shown There have been 3,100 locations secured in the past two years, which have shown an average assay of 300 ounces. We bought a team here, paying \$450 for the same, there being no other mode of conveyance into the park; hence we concluded that the above would be the cheapest way. The most direct route for any party coming from there is to come down the Colorado river, it being about 450 miles by that route, while by the way we came it is all te, while by the way we came it is all of 1,000 miles. Therefore you will see that it is advisable to take the other side of the range. As soon as I arrive at Animas Park I will write you sgain, and send you my address. Pat Barry went back to San Francisco. You may band this to the RECORD for publication.

A GRATIFYING CHANGE. - A year ago or less Pioche had the reputation of being the wickedest place on the Pacific coast, and we will not say that the accusation was wholly unjustifiable, for the too frequent use of the pistol or the knife gave good reason for the charge made against our town. Now, however, we have a right to ask in behalf of Pioche a reversal of the public judgment heretofore rendered, and ask a rehearing and a new trial. We do this in the name of even handed justice, for the people of Pioche have been on their good behavior these many weeks. There has not been a homicide or a serious altercation for nearly two months, and we begin to think that a healthier state of morals pervades the community. We do not attribute this improved condition to accident: we believe it due to the rigor with which the law was enforced against its violators during the session of the District Court preceding the present session. quent use of the pistol or the knife gave

A BED OF SNOW .- Last evening after sundown we saw a man lying in appar ent contentment and serenity upon a bank of snow in Main street. Thinking the man might have been hurt and unable to rise, a humane gentleman approached him with a view of ascerapproached him with a view of ascertaining his exact condition. The individual was found to be no one else than "Billy," a well known Pioche character, who having patronized John Barleycorn and King Alcohol rather too freely, had fallen or deliberately lain down to endeavor to sleep off the fumes of his debauch and afterwards resume his feet again. It was in vain that attempts were made to raise him. As he repowed in a public thorough fare, through which wiederhold. in a public thoroughfare, through which people are constantly passing, no appre-hension is felt as to his fate.

DISTRICT COURT .- Three sessions were held yesterday. Night before last, after our report closed, the jury in the case of Steele vs. Lewis returned a verdict for the plaintiff for \$300 and costs of suit. The case of Wm. Newman vs. John Kane (late Sheriff) and his bondamen, kane (late Sheriff) and his bondemen, was on trial yesterday. The soil grew out of the seizure under attachment and subseqent sale of 51 tons of hay. The sum involved represents a coin value exceeding \$1,000. The evidence was all in when the afternoon session adjourned, and counsel were arguing the case before the jury when our report closed during the evening session.

AUCTION SALE YESTERDAY .- As might be expected, the sale of wines and liquors at the salesrooms of E. A. Friend was quite "spirited." The animation shown by bidders may justly be regarded as a healthy sign of the times, indicating that the articles were in demand, and that purchasers were not backward. The prices obtained were very fair, and equal to the expectations of the auctioneer, Geo. A. Davis.

SALT LAKE ROUTE.-The pony boy of Wells, Fargo & Co. arrived from Salt Lake yesterday evening, and announced that the road had been opened, giving the stage (or sleigh rather) a chance to get in last night. Robbins (Curly Dan), an accomplished jehu, is in charge. A large amount of express matter was exposed last night. A sleigh will leave at noon to-day for the City of the Saints.

DEATES have been remarkably infrequent for two months or more, and Pioche has this Fall and Winter escaped its usual quota of fatal cases of pneumo-nia, which last year was truly alarming. The improved condition of things is at-tributable to the fact that people are bet-ter housed and otherwise cared for than herstofore.

Yearly Statistics.—We shall in the course of the coming week commence gathering statistics of the events of the year now drawing to a close. These statistics are designed for our issue of the 1st day of January, 1874.

More Christmas Presents.—Finlayson offers a fine line of goods suitable for Christmas presents. He announces in this advertisement that his goods were purchased in New York since the panic, and therefore he is enabled to sell at most reasonable prices.

The weather yesterday was quite mild, but it was cloudy all day, with slight indications of rain or snow.

THE ECREEA SECTION AND JUDGE FOL THE OSTRACISED, -It appears by an ad-LER.—Some months since the Eureka Sentinel quite severely criticised the acertisement, to be found elsewhere in today's paper, that "The Ostracised" are to hold their first coterie on the 21st and a picuic to Highland the day following. Who "The Ostracised" are will probably be a subject of anxious inquiry all over town to-day. tion of Judge Fuller in a certain case, but the Sentinel in its issue of Saturday last, takes occasion to say that its course was not prompted by any unkind feeling.
